PreSun® Oily Skin is a topical cream designed especially for oily skin. It is formulated as an anti-photo aging sunscreen and provides 98% sun protection against broad spectrum of UVA/UVB rays. These rays can lead to skin damages including premature skin aging and skin cancers.

PreSun Oily Skin has a unique formula; since Moisture Magnet Technology increases skin hydration by pulling in moisture from air and helps to moisturize and protect oily skin against harmful UVA/UVB rays. It helps to replenish and revitalize the skin.

Octocrylene, octinoxate, oxybenzone and octisalate are high protective sunscreens, enhanced with titanium dioxide, the superior natural sun blocker.

Avena sativa relieves irritation and redness caused by sun exposure, it acts as a natural elastic to prevent and reduce wrinkles. It is a natural skin conditioner to improve the overall appearance of the skin.

Aloe vera and yucca vera stimulate production of collagen and elastin to prevent skin aging. Green tea antioxidants and vitamins A, D, and E have anti-inflammatory and anti-cancer properties.
PreSun® Oily Skin

Bonding Base Technology works by interlocking and holding the PreSun Oily Skin in place on the skin, eliminating the need for frequent reapplication. Visible Application feature allows a visual trail showing where and how much PreSun Oily Skin is applied. This is added to prevent missing spots that may cause sunburn.

PreSun Oily Skin is hypoallergenic, non comedogenic, fragrance and oil free, water resistant, PABA free and non greasy formula; it’s safe for daily use on the body, face and under make up.

**Ingredients:**
Aloe vera, avena sativa, yucca vera, green tea, apple extract, vitamin A, vitamin D, vitamin E, octocrylene, octinoxate, oxybenzone, octisalate, titanium dioxide and water in a suitable base.

**Directions for use:**
Make sure the skin is cool and dry. Apply a dab of PreSun Oily Skin 20-30 minutes before sun exposure. Start at the center and spread outward till the whiteness is barely visible. Move to the extremities and a light layer is sufficient. Reapply if perspiring, swimming or towel drying is required, unless after prolonged sun exposure.

To reduce risk of skin damage:
Minimize sun exposure from 10 am to 4 pm. Use sunscreen daily, all year-round, even on cloudy days. Seek shade. Wear protective gear. Keep babies out of the sun. Use extra caution near water.

**Cautions:**
For external use only. Keep out of reach of children. If a rash or irritation develops discontinue use, and tell your doctor.

**Storage conditions:**
Store below 30°C.

**Presentation:**
40, 75 g Cream \ tube.
